

filevault::core::Streaming
Crypto::decrypt_file

filevault::core::Streaming
Crypto::encrypt_file

filevault::core::CryptoEngine
::derive_key

```
graph LR; A["filevault::core::Streaming  
Crypto::decrypt_file"] --> C["filevault::core::CryptoEngine  
::derive_key"]; B["filevault::core::Streaming  
Crypto::encrypt_file"] --> C;
```

The diagram illustrates a dependency or relationship between three components. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'filevault::core::Streaming Crypto::decrypt_file' and the bottom box contains 'filevault::core::Streaming Crypto::encrypt_file'. On the right, there is a gray rectangular box with a black border containing the text 'filevault::core::CryptoEngine ::derive_key'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both the decrypt and encrypt functions depend on or utilize the CryptoEngine's derive_key method.
