

filevault::cli::ICommand

filevault::core::CryptoEngine

filevault::cli::ListCommand

engine_

```
classDiagram
    class ICommand["filevault::cli::ICommand"]
    class CryptoEngine["filevault::core::CryptoEngine"]
    class ListCommand["filevault::cli::ListCommand"]
    ICommand <|-- ListCommand
    ListCommand ..> CryptoEngine : engine_
```

The diagram illustrates the relationships between three classes in the filevault namespace. At the top left is the interface `filevault::cli::ICommand`. At the top right is the class `filevault::core::CryptoEngine`. At the bottom center is the class `filevault::cli::ListCommand`. A solid blue arrow points from `ListCommand` to `ICommand`, indicating inheritance. A dashed purple arrow points from `ListCommand` to `CryptoEngine`, labeled `engine_`, indicating an association.
