

filevault::core::Streaming
Crypto::decrypt_file

filevault::core::Streaming
Crypto::encrypt_file

filevault::core::CryptoEngine
::initialize

```
graph LR; A["filevault::core::Streaming  
Crypto::decrypt_file"] --> C["filevault::core::CryptoEngine  
::initialize"]; B["filevault::core::Streaming  
Crypto::encrypt_file"] --> C;
```

The diagram illustrates a dependency or relationship between three components. On the left, there are two white rectangular boxes. The top box contains the text 'filevault::core::Streaming Crypto::decrypt_file'. The bottom box contains the text 'filevault::core::Streaming Crypto::encrypt_file'. On the right, there is a gray rectangular box containing the text 'filevault::core::CryptoEngine ::initialize'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both the decrypt and encrypt functions depend on or utilize the CryptoEngine initialization process.
